

# MC38-Ddr1-KO

## 品系基本信息

|       |                                                                                                                                                     |
|-------|-----------------------------------------------------------------------------------------------------------------------------------------------------|
| 目录号   | NMC-230062                                                                                                                                          |
| 细胞系名称 | MC38-Ddr1-KO                                                                                                                                        |
| 品系状态  | 构建中                                                                                                                                                 |
| 品系描述  | Ddr1基因敲除的MC38小鼠结肠癌细胞系<br><br>*使用本品系发表的文献需注明: MC38-Ddr1-KO cell line (Cat. NO. NMC-230062) was purchased from Shanghai Model Organisms Center, Inc.. |
