

# CT26-hPSMA

## 品系基本信息

|       |                                                                                                                                                    |
|-------|----------------------------------------------------------------------------------------------------------------------------------------------------|
| 目录号   | NM-S24A-TM07                                                                                                                                       |
| 细胞系名称 | CT26-Tg(hPSMA)Smoc                                                                                                                                 |
| 品系状态  | 构建中                                                                                                                                                |
| 品系描述  | PSMA基因人源化的CT26结肠癌细胞系<br><br>*使用本品系发表的文献需注明: CT26-hPSMA cell line (Cat. NO. NM-S24A-TM07) was purchased from Shanghai Model Organisms Center, Inc.. |
