

# MC38-hCD47-hGPC3-Tg

## 品系基本信息

|       |                                                                                                                                                             |
|-------|-------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 目录号   | NMC-230092                                                                                                                                                  |
| 细胞系名称 | MC38-hCD47-hGPC3-Tg                                                                                                                                         |
| 品系状态  | 构建中                                                                                                                                                         |
| 品系描述  | CD47基因人源化的MC38小鼠结肠癌细胞系<br><br>*使用本品系发表的文献需注明: MC38-hCD47-hGPC3-Tg cell line (Cat. NO. NMC-230092) was purchased from Shanghai Model Organisms Center, Inc.. |
